ABSTRACT

This statistical profile provides a comprehensive resource for citizens, parents, educators, legislators, researchers, and others who want facts about education in South Dakota. South Dakota has 177 school districts, with 774 schools. Fifty percent of these schools have 100 students or fewer, and only 7% have more than 500 students. The 1995-96 total enrollment was 134,052 students, 94,447 of whom were in kindergarten through grade 8. The report is divided into five sections for easy access. They are: (1) state summaries of school and district 1995 fall enrollments, staff, and programs, as well as state aid indicators, attendance data, and student achievement on national standardized tests; (2) summaries of school, student, and staff data; (3) school and district profiles for 177 districts; (4) student, staff, and financial data tables; and (5) a glossary of terms used in the discussions. Section 1 contains 60 tables and 51 figures, and Section 2 is a lengthy table of summary data. Section 3 contains 12 tables and 1 map for each of the 177 districts. Section 4 contains 18 tables. Introduction

"Education in South Dakota: A Statistical Profile" has been produced by the South Dakota Department of Education & Cultural Affairs (DECA) to provide an easy-to-use set of facts about education in South Dakota. The document serves as a comprehensive resource for citizens, parents, educators, legislators, researchers and others who seek facts about education for the 1995-96 school year.

In addition to efficiently combining what was formerly several reports into a single document, DECA is also making the information available electronically on the World Wide Web via the DECA home page at http://www.state.sd.us/state/executive/deca/.

The report is divided into five sections for easy access, including:

- state summaries of school and district 1995 fall enrollments, staff and programs, as well as state aid indicators, attendance data and student achievement on national standardized tests;
- summaries of school, student and staff data;
- school and district profiles;
- student, staff and financial data tables;
- glossary of terms.

January 1, 1997, marks the implementation of new systems of school finance in South Dakota, put in place by the 1995 Legislature at Governor Janklow's urging. The foundation aid formula guarantees that at least $3,350 will be available per student from two revenue sources: state aid and local property taxes. It also guarantees that the amount will be annually increased 3 percent or the rate of inflation, whichever is less.

DECA will continue to communicate information about schools, including school finance, through this combined report. Additional information, as well as updates, will be provided through DECA's home page on the World Wide Web. We welcome suggestions and feedback on the usefulness of this document at any time.

EARLY CHILDHOOD PROGRAMS

Many policy makers believe that educational efforts targeting disadvantaged children before they begin their traditional schooling will improve their chances of success in the K-12 system. Consequently, the federal government has expanded the Head Start and Even Start programs over the past five years. Head Start is a program which provides instruction to pre-school aged children from economically disadvantaged backgrounds. Even Start serves a similar population, but targets parents with low levels of literacy and seeks to educate not just the children, but parents and children. The data below cover public school, federally funded, and non-public programs.

Scores reflect percentile ranks, which indicate the performance of a typical South Dakota home school student relative to student performance nationally.

*Less than 2% of home school students in South Dakota take the Metropolitan Achievement Test.

THE TYPICAL STUDENT OF ALTERNATIVE INSTRUCTION:

◆ consistently outperforms traditional South Dakota students in vocabulary sections of the Stanford and Metropolitan achievement tests.

◆ overall, scores comparatively the same as traditional students on standardized ability and achievement tests.

FACT SUMMARY:

◆ The term "home school" is a misnomer since the number of students receiving alternative instruction is split between home sites and school sites.

◆ The number of students receiving alternative instruction in South Dakota has risen 158% since 1990.

ALTERNATIVE SCHOOLS

In the 1995-96 school year there were 18 alternative schools throughout the state funded by federal, state and local matching grants. Thirteen schools were funded through the federal Job Training Partnership Act (JTPA), 12 of which were also funded through the state's Youth at Risk Trust Fund. Both grants were matched by local districts. Alternative schools provide a second chance for students who have dropped out of the traditional K-12 system. With the exception of the first enrollment table, all data below represents only the federally funded alternative schools.

- has fallen behind classmates in reading and math skills

FACT SUMMARY:

- Alternative Education began in South Dakota in 1990 with fewer than 100 students. Today there are over 1000 students enrolled in alternative programs.
- Alternative programs encourage completion of high school and job obtainment. One out of eight students graduate each year.

THE TYPICAL SECONDARY VOCATIONAL EDUCATION PARTICIPANT:

◆ enrolled in a vocational program will remain in the program. (88%)

◆ upon completion of program, 94.8 percent are employed, go on for further education or enter the military.

◆ demonstrated a gain in basic and more advanced academic skills and attainment of occupational competencies associated with the program.

FACT SUMMARY:

◆ 99% of vocational-technical teachers made "on site" business and or industry visits which were related to their instructional program.

◆ 91% of the vocational-technical programs held a public information event.

◆ 44% of those participating in secondary vocational education are in a special population.

DISTANCE LEARNING

Expansion of distance learning technology and applications continued for the 1995-96 school year with the addition of new satellite downlink sites, the addition of the Sanborn Interactive Video Network (SIVN), and operation of the North Central Area Interconnect (NCAI).

The statewide Rural Development Telecommunications Network (RDTN) grew from 37 to 64 satellite downlink sites increasing the opportunities for interactive satellite classes in South Dakota schools. There were three high school classes offered from a commercial distance learning provider (TI-IN Network) and three "dual credit" secondary/college level classes originating from South Dakota universities. The enrollment figures for the high school classes are listed below:

NUMBER OF PARTICIPATING SCHOOLS	
Year	*# of Downlink School Sites*

1995-96	36

ENROLLMENT IN SATELLITE HIGH SCHOOL COURSES

The Sanborn Interactive Video Network (SIVN), a regional consortium of nine sites, (Alpena, Artesian-Letcher, Ethan, Mitchell, Mt. Vernon, and Woonsocket school districts; Mitchell Technical Institute; Queen of Peace Hospital; and Dakota Wesleyan University) also began operations with a fully interactive, two-way audio/video, distance learning network. Five high school classes were conducted over the SIVN during the Spring 1996 semester.

The North Central Area Interconnect (NCAI), another regional fully interactive distance learning network linking eight school districts, (Aberdeen, Briston, Elm Valley, Groton, Hecla-Houghton, Leola, Warner, and Webster) expanded its class offerings to include 13 high school classes.

FACT SUMMARY:

◆ According to a National Center for Education Statistics survey, three percent of all instructional classrooms nationwide have phone access to connect them to the internet. DECA estimates that about five percent of South Dakota's classrooms have internet access.

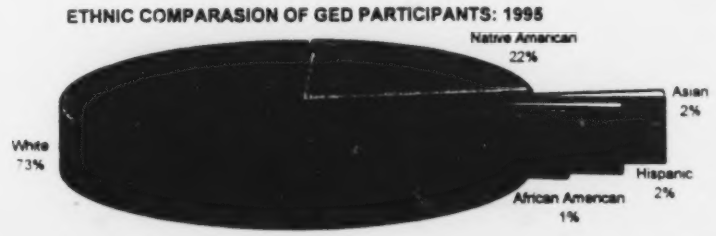
◆ The same survey found that 70% of public schools nationwide have access to instructional television. DECA estimates that about 95% of South Dakota schools have access to ITV.

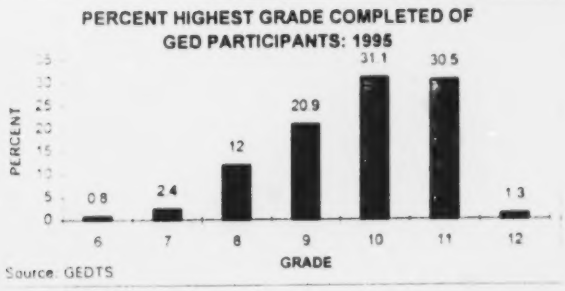
◆ According to the NCES survey, funding was the primary barrier to acquiring or using telecommunications technology in public schools.

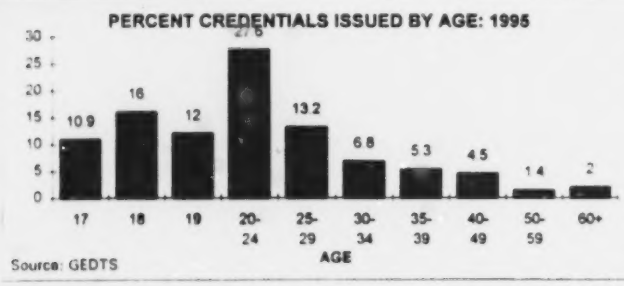
GENERAL EDUCATIONAL DEVELOPMENT (GED) TEST

Created in 1942 as a service to World War II veterans, the GED provides those who did not complete high school with the opportunity to receive the equivalent of a high school diploma. The GED is administered by the GED Testing Service. The costs of the test are covered by fees paid by the test taker. The test consists of five tests which measure general knowledge and skill development in writing, social studies, science, math, literature and the arts. The minimum age requirement to take the GED in South Dakota is 17. Scored on a scale of 20-80, South Dakota requires a minimum score of 40 per test section and a total average of 45.

SOUTH DAKOTA PARTICIPANT SUMMARY







SOUTH DAKOTA PERFORMANCE SUMMARY

Based on GED participants who completed entire exam/ Source: GEDTS

FACT SUMMARY:

◆ Approximately 2,200 South Dakotans take the GED each year. In 1995, 2,230 took the test (in whole or in part), 1,351 completed the entire battery. Of those who completed the test, 1,141 passed.

◆ The percentage of people in South Dakota who pass the GED is consistently 10 percent higher than the national average.

◆ The 1990 Census found that those who do not possess a high school diploma will earn 2/3 less than those who do over a lifetime of work.

SPECIAL EDUCATION

The provisions of South Dakota Codified Law 13-37-1, define children in need of special education and related services as any person under the age of 21 years who is a resident of the state of South Dakota and who because of his/her educational needs is not adequately provided for through the usual facilities and services of the school. The Administrative Rules of South Dakota, Article 24:05, provide the rules governing special education programs for public and nonpublic schools. The data below are taken from Special Education's Child Count, which looks at enrollment in Special Education on December 1 each year.

SCHOLASTIC ASSESSMENT TEST

The Scholastic Assessment Test, or SAT, is a college entrance exam designed to measure verbal and quantitative reasoning skills associated with performance in college. The SAT has only two sections: math and verbal, with a possible score of 800 on each section. Unless specified, all data below are from the College Board.

FACT SUMMARY:

- Over 60% of the state's 1996 graduating class took the ACT.
- Those completing a core curriculum in high school (4 units of English, 3 units of Math, Science and Social Studies) perform better on the ACT than those who do not.

STANFORD AND METROPOLITAN ACHIEVEMENT TESTS

The Stanford Achievement Test Series, Eighth Edition, and the Metropolitan Achievement Test Series, Seventh Edition, are used in South Dakota schools as an overall measure of achievement in the basic skills. The Otis-Lennon School Ability Test, Sixth Edition, administered with both achievement tests in the spring, is a measure of abstract thinking and reasoning ability, measuring the same abilities that are emphasized in school and that are related to success in school learning. Ability scores and achievement scores should ideally be similar. Fifty-two percent of South Dakota students in grades 4, 8 and 11 were tested with the MAT 7 and 48% with the SAT 8. On the graphs below, 50 represents the national average. All scores are percentile ranks, which indicates the performance of a typical South Dakota student relative to student performance nationally.

Grade 8	57	65	57	65
Grade 11	60	66	60	66

THE TYPICAL MAT 7/ SAT 8 PARTICIPANT:

◆ MAT 7 participants scored at or above the 50th percentile in all major subject areas; SAT 8 participants scored below the 50th percentile in Listening among 8th graders and Spelling among 11th graders.

◆ MAT 7 participants achieved as high as their ability scores on the Otis-Lennon School Ability Test suggest they can; SAT 8 participants did not score according to their ability except in grade four.

FACT SUMMARY:

◆ Results from prior years indicate a consistent performance on achievement tests by students in grades 4, 8 and 11.

◆ On the Stanford, scores tend to decrease from grades four to eleven. One possible explanation for this trend may be older students' attitudes toward testing.

◆ South Dakota students taking the Stanford do not perform as well as those taking the Metropolitan. This disparity may be due to a differing level of difficulty between the tests, or the degree to which one test reflects course curriculum more than another.

ADVANCED PLACEMENT PROGRAM

The Advanced Placement program is a cooperative effort among high schools, colleges and the College Board. High schools offer advanced placement, or college-level courses in various subjects. Students in these courses have the opportunity to take exams in their subject administered by the College Board. Participating colleges then recognize those students who pass the A.P. exam by offering college credit. The tests range in subjects from calculus, biology and chemistry to U.S. history and government, English literature and composition, economics and foreign languages. The tests are scored on a scale of 1 to 5. A three or better is universally accepted as passing.

- The number of schools participating in the Advanced Placement Program in S.D. doubled over the last five years.
- The University of South Dakota at Vermillion received the most test scores from S.D. test takers. South Dakota A.P. participants sent more scores to the University of Minnesota-Twin Cities than to any other out-of-state university.

NATIONAL MERIT SCHOLARS QUALIFYING TEST (NMSQT) / PRELIMINARY SAT (PSAT)

The National Merit Scholarship program provides students the opportunity to take the Preliminary SAT, or PSAT, during or prior to their junior year in high school. Graded on a scale of 20-80, the PSAT tests students' math and verbal skills. Each state is given an allocation of students to qualify as semifinalists based on the state's percentage of the national total of high school graduating seniors. In South Dakota, approximately 50 students with the highest scores become semifinalists. Finalists are then chosen out of this pool, again with a representative allocation chosen from each state. In South Dakota, approximately 30 students are annually chosen as finalists. These finalists then receive $2,000 scholarships and become eligible for additional corporate-sponsored and college-sponsored scholarships to pursue post-secondary education.

1995-96 PUBLIC SCHOOL DROPOUTS

A dropout is defined as an individual who meets the following criteria: 1) was enrolled in school (grades 7-12) at some time during the previous school year, 2) was not enrolled at the beginning of the current school year, 3) has not graduated or completed an approved educational program, 4) did not tranfer to another LEA, private school, federal or state-approved educational program, 5) was not absent due to suspension or school-approved illness, or death. The dropout rate is calculated by dividing the number of dropouts by accumulative enrollment.

GLOSSARY

GLOSSARY OF TERMS

ACCUMULATIVE ENROLLMENT - The total number of students enrolled in a school year (beginning of the year enrollment plus any students added after that date).

ADM PER SQUARE MILE - The total **ADM** divided by the number of square miles of the school district.

AD VALOREM REVENUE - Revenue generated from local district property taxes for school purposes.

ASSESSMENT TO SALES RATIO - The ratio of the recorded assessed (full and true) valuation of property, as determined by the county assessor, to the actual sales amount for the same property.

ATTENDANCE RATE - The average percentage of enrolled students who attend school each day.

AVERAGE CLASS SIZE - For elementary schools this ratio indicates average number of students in each class; for middle and high schools this ratio indicates the average number or students served by each staff member.

AVERAGE DAILY ATTENDANCE, ADA - The average daily attendance for a school is the aggregate days attendance of the school divided by the number of days in session.

AVERAGE DAILY MEMBERSHIP, ADM - The average daily membership for a school is the aggregate days of membership of the school divided by the number of days in session.

CERTIFIED STAFF - Staff performing services for which a teacher certificate is required (teachers, counselors, librarians, administrators, support staff).

CLASSIFIED STAFF - Staff performing services for which no legal credential is necessary (clerical, food service, custodial.)

CLASSROOM TEACHER - Certified staff members who instruct students, does not include librarians.

CONTRACTING DISTRICTS - A school district in South Dakota that contracts, with the approval of the Department of Education and Cultural Affairs, with another state or South Dakota district to provide educational services.

DISCRETIONARY VALUATION - A reduction in value for tax purposes for certain classes of new structures or improvements to existing structures. Value may be reduced in part or in whole for a period of five years. (SDCL 10-6-35.2)

DISTRICT SUPPORT STAFF - Staff members who provide direct support to district administrators.

DROPOUT - A dropout is an individual who was enrolled in school at some time during the previous school year; was not enrolled at the beginning of the current school year; has not graduated or completed an approved educational program; and does not meet any of the following exclusionary conditions; transferred to another LEA, private school, federal or state approved educational program, temporary absence due to suspension or school approved illness, or death.

DROPOUT RATE - The number of dropouts divided by accumulative enrollment.

EXPENDITURE - A measure of fund liabilities incurred during a period for operations, capital outlay and debt service.

EXPENDITURE PER PUPIL - Average cost to provide educational services to students in-district.
